

BLU Tank II Battery Replacement

Replace the battery in your BLU Tank II.

Written By: David Kelchner

INTRODUCTION

This replacement guide will show you how to replace a dead, or broken battery for the BLU Tank II cell phone. Tools, or prerequisite knowledge, will not be required for the replacement of the battery.

Step 1 — Back Panel

- With the screen facing you, find the left corner of the phone. There should be a visible groove.
- With your fingers, carefully press a fingernail into the slot and separate the back panel from the phone.

Step 2 — Battery

- After the back panel has been removed, put your finger on and press down on the bottom part of the battery.
- Lift the battery up and carefully remove the battery.

To reassemble your device, follow these instructions in reverse order.
